How does it work?

It's simple, with all the people that inquire about your sale properties, only one will become the actual buyer. So, the question is what happens to the rest of those people who inquired but didn't buy? At MyTmar, we see those buyers as potential leads. We understand that if they didn't buy that specific property you were offering, they are still most likely looking for something, therefore to us, they become qualified buyer leads. We are saving buyers thousands every day and we can save your buyer thousands too with our Cash Back Rebate. They just need to join the network! It's free and already saving people thousands!

What does that mean for real estate investors?

In mere seconds, we can turn your dead leads into a new potential buyer in our network, which means an alternative income for you. See, we told you it was simple, whether they buy your home, or any other property, Just by using our network services, they save thousands with our Buyer Cash Back Rebate and you get credit as well as make hundreds if not thousands from a percentage of your leads.
